

WINEWISK™ AERATOR

Dear Laurie,

Thank you for reviewing samples of WINEWISK!

WINEWISK is a new type of wine aerator that attaches to the rim of your wine glass.

Swirl your wine, make bubbles and release your wine's full potential. A before & after effect in every glass!

Why WINEWISK? When using WINEWISK wine aerator take a few sips first and get an idea of what the wine is like. Once you feel comfortable start swirling and aerate your wine. By tasting wine this way you get a before and after effect. You get to compare what the wine was like first, and what the wine is like after aerating it. The fun starts when you start to taste the difference.

HOW TO USE WINEWISK WINE AERATOR -

- Clip WINEWISK onto the rim of your glass
- Pour wine to the widest part
- Take a few sips first to taste
- Swirl until bubbles form
- Taste the difference!

Please review your samples at your leisure and let us know if you have any questions at all! We look forward to potentially working with you!

Cheers!
